

Security Alarm Installer/Technician

Job Description:

This is your opportunity to join one of the fastest growing security alarm companies in South Jersey - Wilkes Technologies, LLC. We are one of the largest subcontracting alarm companies for major companies, such as ADT, Guardian and Monitronics.

We are currently looking for people who are energetic, driven, and have a natural sales aptitude to partner with us. As a Security Alarm Installer/Technician you will receive top pay, training, a consistent work load, and the chance to work with a stable growing company that has integrity and knows how to treat people with respect.

We Offer:

- A stable work environment, as our company has been in existence since 2000 and continues to rapidly grow
- Competitive base pay plus 25% commission
- Reasonable install schedules
- Opportunity to increase your earnings through up-selling of additional equipment
- Solid communication and processes to make your job more efficient
- Training is provided on all equipment and its functions

Responsibilities Include:

- Installation of security systems for residential and light commercial customers
- Review and prepare for each job according to job ticket and customers' needs
- Sell additional equipment, if needed, to ensure each job is completely protected
- Teaching the customer how to properly use the device(s)
- Ensuring that all paperwork is complete and submitted in a timely fashion
- Replace or repair defective parts
- Maintain inventory and manage schedule for installation
- Use of personal vehicle

Requirements:

- Sales experience preferred
- New construction pre-wiring experience preferred
- Low voltage experience required
- Security system installation experience preferred
- Good credit and clean background
- Professional appearance and good communication skills required
- Valid driver's license and auto insurance
- Weekend availability required
- Physically able to climb ladders and lift up to 45lbs

Wilkes Technologies is an equal opportunity employer and a drug-free workplace.
